

**SPECIFICATIONS**

A Fixed Banner Arm is the no-nonsense option when you just need the job done and done right. It doesn't need adjusting, and keeps the banner tight and steady through wind, rain, and sun. Fewer moving parts means less to worry about breaking or wearing out, which cuts down on maintenance and keeps costs low.

**Material**

Made from powder-coated galvanized steel for maximum durability and corrosion resistance.

**Finish**

Electrostatically applied TGIC Polyester Powder Coat on substrate prepared with 20 PSI power wash at 140°F. Four step media blast and iron phosphate pretreatment for protection and paint adhesion. 400°F bake for maximum hardness and durability.

**Intended Use**

It's the straightforward, hard-working choice for towns, schools, or businesses that want their banners to stay put and look good without extra hassle.
